# B112

## Wax Resin - Near Edge Thermal Transfer Ribbon

## Near Edge

Specifically for near edge or corner edge technology printers

B112 is a flexible wax/resin ribbon specifically designed to work with near edge technology printers in high volume labelling applications like flexible film and print and apply applications. B112 wax/resin ribbons use low print energy, provide consistent print quality and clean dot edges for dense barcodes. This ensures that they are readable on a wide range of media at high speeds.
